

A vibrant, stylized illustration of a tropical beach scene. The background is a warm, golden-yellow sky with soft, rounded mountains in shades of orange and pink. In the foreground, there's a bright blue ocean with a white wave breaking on a red sandy beach. Various tropical plants and leaves are scattered throughout, including palm fronds in the top corners and colorful foliage in the bottom corners. The overall style is flat and modern.

Kotlin

About me

Christian Wörz

Senior Fullstack Engineer | Trainer | Speaker

What is Kotlin?

Multiparadigm

Object oriented
and functional

Developed by
Jetbrains

+ OpenSource
Community

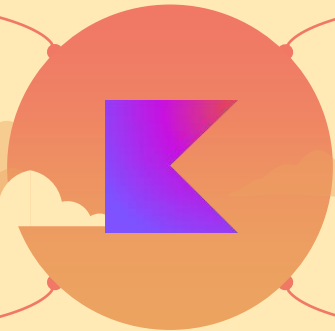

Inspired by many languages

Java, Scala, Groovy,
C#, JavaScript,
Python, Ruby

Multiplatform

JVM, JavaScript,
Android, iOS, native

Productive?

Why should (Java)-Devs care?

**1st Class Spring
Support**

Interoperability

**Stable since 7
years**

**Build-Support
(Maven/Gradle)**

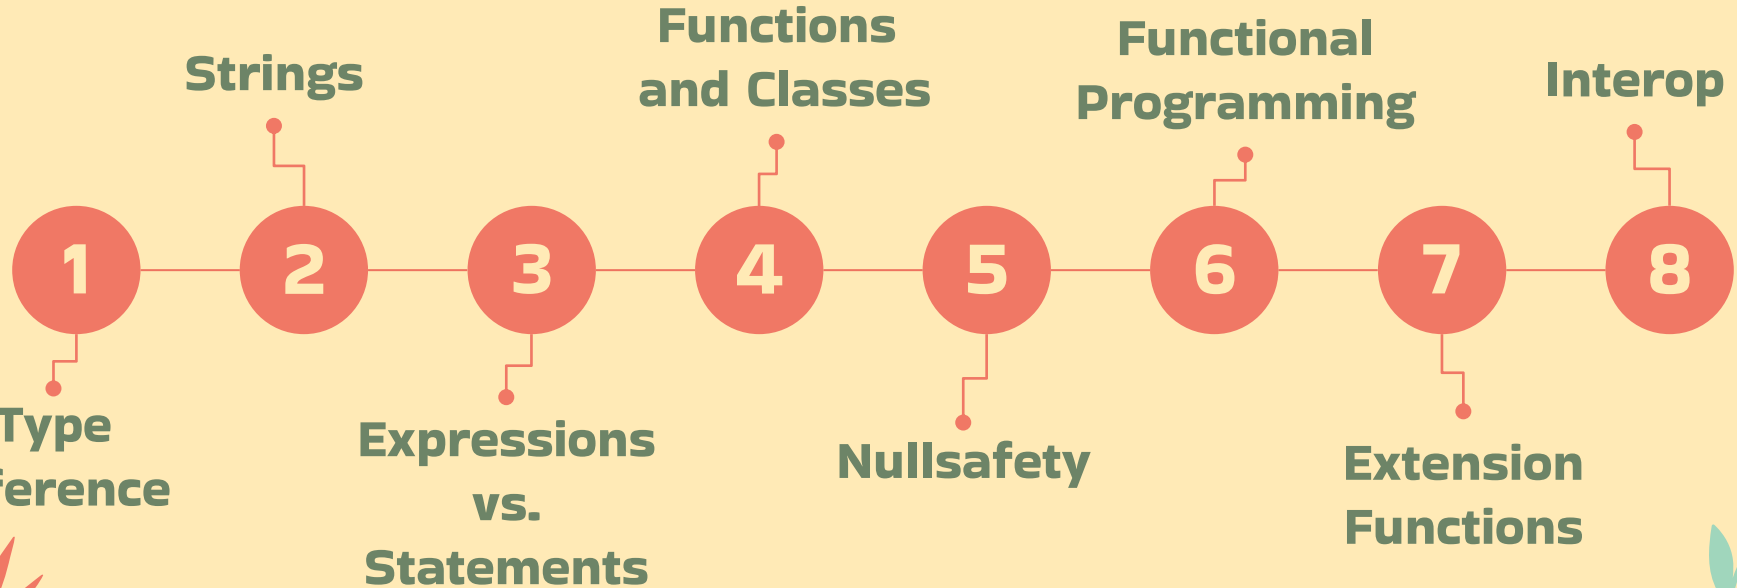

**Compatibility
with Java-Libs**

**Used in many
places**

Live Coding Expedition

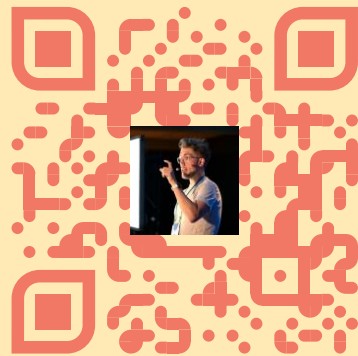

A vibrant tropical scene with a yellow sky, blue ocean, and a sandy beach. Palm trees are visible in the corners, and stylized mountains are in the background.

LET'S CODE

QUESTIONS

A stylized tropical landscape illustration. The background is a solid light yellow. In the top left and top right corners, there are palm fronds in red and black. In the bottom left, there are green mountains. In the bottom right, there are jagged green and blue mountains. A blue body of water with a white sandy beach runs across the bottom of the image.

Thanks!
